

### SUBJECT INDEX

- ??? Admission, into emergency surgery unit, 318
- A**  
Accident among hair dressers, 310  
Adrenal disease, caused by HIV, 293  
Amputation, arising from traditional bone setting, 333  
Amputations, pattern and outcomes, 314  
Anti retroviral therapy , metabolic side effects of, 300
- B**  
Below knee amputations, in a private hospital, 314  
Beta adrenergic blockers, usefulness in Marfan's syndrome, 338  
Bone setters, complications due to, 333
- C**  
Cardiovascular complication, 338  
Case report, as letter to the editor, 344  
Cerebral palsy, frequency in paediatric neurology, 328  
Children, congenital heart disease in, 323  
Circumcision, female, effect on HIV infection prevalence, 306  
Co-infection, by HIV and Hepatitis C, 306  
    comparison of unit separation to single unit model, 318  
Congenital heart disease, associated syndromes, 323  
Congenital malformations, 323
- D**  
Diabetes mellitus, as cause of lower lines amputation, 314  
Diagnostic criteria, Marfan's syndrome, 338  
Disorders, in paediatrics neurology, 328  
Down syndrome, congenital heart disease associated with, 323  
Dyslipidaemia, caused by HAART, 300  
Dyslipidaemia, due to HAART, 300  
Dyslipidaemia, due to HIV, 293
- E**  
Echocardiography, findings in congenital heart disease, 323  
Echocardiography, findings in Marfan's syndrome, 338  
Endorinopathy, due to HIV/AIDS, 293  
Epilepsy, frequency in paediatric neurology, 328
- F**  
Family study, of Marfan's syndrome, 338
- H**  
HAART, causing serum and glucose disorders, 300  
Haemoglobin electrophoresis, 344  
Hair dressers, occupational hazards of, 310  
Hepatitis C, co-infection with HIV, 306  
HIV, CO-infection with hepatitis C, 306  
HIV, prevalence in the Gambia, 306  
HIV/ADIS, endocrine manifestation, 293  
HIV/AIDS, glucose lipids disorders, 300
- I**  
Ibadan, illnesses of hairdressers, 310  
Ibadan, neurological disorders in children, 328  
    inconsistencies in haemoglobin electrophoresis, 344  
    Inconsistencies in results (letter), 344
- L**  
Lagos, amputations in, 314  
Letter to the editor, 344  
Letter to the editor, ortho-trauma deaths, 345  
Lower limbs, amputation of, 314
- M**  
Malunion, complicating traditional bone setting, 333  
    Management of, in Marfan's syndrome, 338  
Marfan's syndrome, congenital heart disease in, 323  
Marfan's syndrome, Nigerian family study, 338  
Metabolic disorders, due to HIV, 293  
Mortality in emergency surgery, 318  
Mortality, associated with limb amputation, 314  
Mortality, due to ortho-trauma (letter), 345  
Motorcycle accidents, as cause of lower limb amputation, 314  
Musculoskeletal injuries, arising form bone setting, 333
- N**  
Neurological disorders, in Ibadan children, 328  
Non- nucleoside reverse transcriptase inhibitors, in HIV/AIDS, 300
- O**  
Occupational hazards, of hair dressers, 310
- P**  
Pituitary disorders, caused by HIV, 293  
Port Harcourt, ortho-trauma death, 347  
Prenatal diagnosis, haemoglobin electrophoresis, 344  
Prevalence, of Hepatitis C and HIV co-infection, 306  
Protease inhibitors, in HIV AIDS, metabolic effects, 300
- S**  
Self – reported illness, among hair dressers, 310  
Serum lipids, disorders of, due to HAART, 300  
Single Emergency unit, compared to unit separation, 318  
Surgery, Emergency, effect of unit separation, 318  
    Syndromes in children, 323  
Syndromes, congenital heart disease, 323
- T**  
Testicular dysfunction, due to HIV, 293  
The Gambia, HIV and Hepatitis C in, 306  
Thyroid disorders, caused by HIV, 293  
Traditional bone setting complications due to fractures, 333  
Trauma, leading to amputation, 314  
Treatment of fractures, by traditional bone setters, 333
- U**  
Unit separation model, results of Emergency surgery, compared to, 318
- W**  
West African College of Physicians, abstracts of conference, 348
